'iSee-IT Fellowship for 2022'

About iSee: Indian Society for Education and Environment (iSee) publishes **Gold open access journals** (*https://www.iseeadyar.org/journals*) and archived ~15000 peer-reviewed research articles as free access to benefit researchers, globally.

In continuing with the objectives of publishing open access research articles, iSee nourishes young minds inclined towards research bent. In this regard, the iSee-IT Fellowship for 2022 is put in place.

Nature of Fellowship: Ad hoc; 'Learn while doing- learn from Team'; The candidate is expected to assist and learn various steps involved in online publication of research material; web content management, indexing of research content.

Eligibility: Inspired candidate with the bent towards web-design and blog management with working knowledge in python will be ideal. Prior experience in web design/ server end management/ journal publication software will be an added advantage. It offers additional opportunity where fresh graduates before entering into actual research would be benefitted.

Details: Current Vacancy: 1; Amount: INR 15000-20000 per month; 12 months; extendable to another one year with revised fellowship amount in tune with their aptitude & deliverables.

Role: Will receive hands-on training in handling and processing research articles in various steps of open access publication; the assignment is progressive nature in tune with one's performance. 'work from home' concept is supported by isee.

What candidate gains: The candidate will have opportunity and access to cutting-edge research materials; will gain skill on research content management digitally, able to develop suitable apps and blogs to display research content for easy access; to gain better understanding on the anti-plagiarism software, publication ethics, bibliographic tools, research interactive fora etc.
